

WHAT IS SOQI?

SOQI = Solar and Qi. It combines Motion, Thermal, Electric, and Nutritional Energy to release toxins and unhealthy build up in our body. It restores the natural healing ability of the body to improve our immune systems and extend our life span.

TOTAL HEALTH MANAGEMENT

The "Multiple Energy Approach" includes the "SOQI Total Health Spa." By combining modern technology with Eastern theories, people can begin to experience this new health concept through the Chi Machine®, HotHouse™, Advanced ERE™, E-Power™, and HTE's Nutritional Supplements: Motion, Thermal, Electric, and Nutritional Energy combined!

Motion Energy - Body Oxygenation with The Chi Machine; Oxygenation through the use of the Chi Machine . Neither injury nor side effects have been recorded while using the Chi Machine. This is true oxygenation therapy that delivers its effectiveness through our concept of Motion Energy.

Thermal Energy - Far Infrared Heat with the HotHouse™ - Having the ability to obtain enough oxygen and nutrients into each cell is vital for good blood circulation.

Electric Energy - Frequency Stimulation and Body Regeneration with ERE and E-Power
The Advanced Electro Reflex Energizer (Advanced ERE) is an instrument that helps balance the body's energy levels. When there is pain in the body there is electrical resistance, meaning the electrical signals between cells are suppressed. Consistent use of the Advanced ERE™ can help restore a balanced state of energy throughout the body. E-Power™ -Using electric energy along with high frequency negative potential energy. E-Power opens up cells to allow toxin elimination and nutrient absorption. E-Power IS the ultimate body balancer!
